FAB STEEL

Romac's Fabricated Steel division manufactures couplings, flange adapters, tapping sleeves, expansion joints, dismantling joints and accessories. Fabricated steel items are available in standard and custom sizes and configurations to meet any unique application requirement.

REPUTATION

Romac Industries, a leader in the waterworks products industry, is known for manufacturing innovative, quality products while providing the best possible customer service - a reputation built over the last 30 years.

COMMITMENT

The commitment and meticulous care that transforms raw materials into finished Romac quality products also goes into all custom fabricated items made to customer specific needs.

SPECIALIZED ENGINEERING

Romac's staff of licensed professional engineers draw upon decades of highly specialized experience and work with you to provide an economic solution that best fits your project's needs.

CUSTOM MADE

High quality Romac products produced on state-of-the-art equipment include:

- Large diameter couplings - fully expanded to 200 inches
- Large diameter flange coupling adapters - various flanged configurations
- Custom fabricated steel tapping sleeves
- Dismantling joints & flexible connections
- Expansion joints
- Bell joint repair housings & encasements
- Pressure ratings up to 600 psi

PROVEN RELIABILITY

From basic couplings in all sizes to gigantic tapping sleeves, Romac products feature in thousands of fluid systems worldwide. Various applications include:

- Water
- Wastewater
- Power generation
- Pulp paper mills
- Mining
- Industrial plants

Our reliability and reputation is unsurpassed in delivering trouble-free, custom products on time.
