

PIPE RESTRAINER 470 SERIES

SUBMITTAL INFORMATION

USE

The Romac 470 Style Restraint System is used for the restraint of PVC pipe to mechanical joint fittings, bell & spigot PVC pipe joints and bolted sleeve type couplings used on PVC pipe. The 470 Style Restraint replaces the need for costly concrete thrust blocking.

MATERIALS

RETAINER

Body ASTM A 36 Steel Plate.

BOLTS AND NUTS

High strength low alloy steel bolts and nuts. Steel meets AWWA Standard C111. Type 304 Stainless Steel bolt material optional.

COATINGS

Romac shop coat, fusion bonded epoxy (exterior only) available on request.

PRESSURE

When properly installed on PVC pipe the Romac Style 470 Restraint System may be used up to the pressure rating of the pipe and 2:1 test.

SIZES

14 through 30 inch.

This information is based on the best data available at the date printed above. Please check with Romac for any updates or changes.
